Good afternoon,

Jim has reviewed the attached spreadsheet and recommended that I forward it on to both of you for additional guidance. This spreadsheet is a list of the high profile articles for FY17 and FY18 (to date) with the timelines of when they were approved. Lots of help from Breanne on this who pointed out that if you look at final approval dates in calendar year 2017 the average time in the IOAA was around 19 days. Since 1/1/18 the average has changed to 30 days.

I am not sure how much help this will be statistically as it is a very small group.

*Leeann*
